

LABORATORY GRADE FINISHING WITH STYLE: **UV LABCOAT™**

Pre-finished hardwood plywood with a premium topcoat that offers even more depth and durability than our standard UV offering. It is compliant with the Scientific Equipment and Furniture Association (SEFA™) reagent stain resistant standards, enabling LabCoat to be used in labs, schools, institutions and other commercial installations that require the chemical resistance of a laboratory grade finish. Combined with our **PureBond®** formaldehyde-free hardwood plywood technology, **UV LabCoat** panels will enhance and improve your next project, meeting the highest standards for appearance, performance and indoor air quality.

UV LABCOAT™: A NEW ERA OF FINISH

Since 1996, **Columbia Forest Products** has delivered millions of **UV Wood™** panels to the industry, offering a beautiful, prefinished hardwood plywood panel with the convenience and durability of a **UV topcoat**.

Due to increased demand for prefinished panels backed by SEFA™, we introduce **UV LabCoat™**. This SEFA™-certified finish option provides improved chemical resistance while maintaining the depth and clarity expected from Columbia's finishing line.

Combined with our **PureBond®** formaldehyde-free hardwood plywood technology, UV LabCoat™ offers a superior prefinished panel solution for your next project.

FEATURES & BENEFITS

- **SEFA-compliant panels** made with a higher millage of **epoxy acrylate** UV-cured clear topcoat for more chemical resistance than our standard UV Wood.
- UV LabCoat passed **3 certified tests**: 8.1 Chemical Spot Test, 8.2 Hot Water Test and 8.3 Impact Test.
- Beautiful **UV finish** that resists scratches and chips and passed a 49-point chemical test.
- Premium, **Full-Fill™ finish** adds luster, depth and clarity to the decorative wood veneer.
- Columbia's **factory finishing** reduces labor time, increasing productivity and efficiency in fabrication.
- **Three regional finish line facilities** across North America for consistent availability and prompt delivery.
- PureBond® panel assemblies are compliant with **USGBC®, LEED® Composite Wood Evaluation**.
- Available as **FSC® Mix** at time of order placement.
- Over **65 years of making** the industry's superior hardwood plywood.
